**DETAILED ACTION**

**Election/Restriction**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Group I. Claims 1-3 are drawn to an enterotoxin adsorbent classified class 424, subclass 236.1 .
- Group II. Claim 4 is drawn to a method for adsorptive removal of an enterotoxin, classified in class 424, subclass 140.1.
- Group III Claim 5 is drawn to an enterotoxin adsorption apparatus, classified in class 435, subclass 283.1.

2. Groups I and III are related as different products. Group I is drawn to an enterotoxin adsorbent. Group III is drawn to an enterotoxin adsorption apparatus. Group I and III differ because they are physically and functionally distinct chemical entities. These products are distinct because they differ structurally and functionally.

3. Groups II and (I and III) are product and process of using. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a material different process of using that product (MPEP 806.05(h)). In the instant case the apparatus of Group III, can be used in specimen collection.

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:

The inventions are distinct, each from the other because of the following reasons:

Because these inventions are distinct for the reasons given and have acquired a separate status in the art because of their recognized divergent subject matter as shown by their different classification, restriction for examination purposes as indicated is proper. Moreover, in the absence of restriction it would place an undue search and examination burden on the examiner.

5. Applicant is advised that the reply to this requirement to be complete must include an election of invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

Art Unit: 1645

7. Any inquiry of the general nature or relating to the status of this general application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
